Declaration

As an importer of PV Modules for the Australian market, I will (Please Tick):

- Abide by the Terms and Conditions for listing a PV module on the Clean Energy Council (CEC) approved product list <https://www.cleanenergycouncil.org.au/industry/products/terms-and-conditions/module-terms-and-conditions>
- Ensure my products are compliant with all relevant requirements as specified by Australian standards, regulations and legislation
- Expect that my product could be the subject of a testing program and will sell stock modules for testing
- Understand that non-conformances with certification could lead to removal from the CEC approved product list
- Include full disclosure of country of manufacture in my customer documentation
- Keep records of the serial numbers of all modules supplied by me to the Australian market and make this information available as required by CEC and the Clean Energy Regulator.
- Maintain a public website which provides access to customer documentation (datasheet, install manual and warranty) as provided to CEC by the manufacturer
